

is interfering with his ability to be able to manage the farm.

A private landowner adjacent to the national monument is now seeking to be able to donate 160 acres to the monument to further protect archaeological sites and cultural resources and to alleviate access issues.

The land has been studied and determined to be appropriate for inclusion in the national monument. The donation would facilitate a new access road to the monument and parking for visitors.

It is important to note that the Montezuma County Commission has approved the road and parking plan and waived a “no net loss” of private land policy to officially support the 160-acre donation. In doing this, the county has asked that my office work to be able to release five wilderness study areas within Montezuma and Dolores Counties, areas that pose problems for the counties when it comes to protecting nearby communities from wildfire threats, balancing recreation needs, and managing noxious weeds. I have already started working to release these WSAs, and I am committed to being able to see the process through.

Currently, the National Park Service has minor boundary revision authority, as long as the sum total of the acreage added to the unit is less than 200 acres and the lands are adjacent to other Federal lands administered by the National Park Service.

Although this proposed donation is less than 200 acres, the donation would increase the acreage within the monument about six times over. Therefore, Congress must authorize a boundary revision before the donation can be accepted.

The Yucca House National Monument is one of the most significant archaeological sites in the country and stands as a reminder of how the ancient Puebloans used to live hundreds of years ago.

I urge my colleagues to support this bill so that future generations can continue to be able to experience the cultural and archaeological significance of the monument.

Mr. MCCLINTOCK. Madam Speaker, I yield back the balance of my time.

Mr. NEGUSE. Madam Speaker, again, I thank my colleague, friend, and neighbor, Mr. TIPTON, for his leadership on this bill. I certainly urge my colleagues to support it.

I also want to make sure we take a moment to take stock and reflect on the benefits of the Antiquities Act of 1906, that bedrock law signed into law by President Teddy Roosevelt so long ago that has enabled us to move forward with protecting monuments like the one included in the bill that is before the House today.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Colorado (Mr. NEGUSE) that the House suspend the

rules and pass the bill, H.R. 1492, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.
